Do you need help with...
data collection?

Field work
data collection with GPS, mapping...

... data analysis?

Decision support
determination of suitable area, shortest path...

Landscape classification
typification, regionalisation

Analysis of satellite images
experiences with MODIS, Landsat...

Python and HTML programming

... data display?

3D landscape model

... 2D or 3D?

General maps, specific thematic maps
example: California (LGD Travel guides)

Web GIS
example: UH! Atlas

Obviously you are doing well!
I would be happy to work with such a team! How can we cooperate?

If one of your answers was YES, then I can help you!
